

FAVOR - An Addiction Charity Promoting Recovery

We are a national charity made up of individuals in recovery, their friends, families and community recovery organisations.

The Charity

Faces & Voice's of Recovery UK is a registered member-led charity supported by a Board of Trustees, the majority of whom are in recovery. We have ensured a good geographical spread in the representation of the Board of Trustees and have adopted a transparent and simple way in recruiting Trustees and Members.

The Charity is registered with the OSCR, (Office of the Scottish Charity Regulator) allowing the charity to operate in England, Wales, Ireland and Scotland. The charity practices good governance as recommended within the good practice guide produced by the OSCR.

Our Goal

Our strategy is to remain focused upon supporting the delivery and sustaining the UK Recovery Walk. Throughout the year we will get involved in local events and help grass route initiatives to realise their dreams in getting their voices of recovery heard and their faces seen.

Our Mission

- To support people in recovery across the UK to connect and share in their recovery by taking part in the national walk and conference
- To provide various social media platforms to share news and stories
- To provide individuals with the opportunity to share their assets with others
- To act as a resource for those that are involved in planning recovery focused events

The Walks

The UK Recovery Walk which takes place each September, raises awareness of substance use disorders and RECOVERY from addiction. The point of The UK Recovery Walk is to celebrate the achievements of individuals in recovery, and acknowledges the work of prevention, treatment, and recovery service providers. The UK Recovery Walk attracts participants from around the UK, including key city officials, people in recovery and their friends and family, policy makers, health planners and purchasers of goods and services, representatives of industry and commerce, as well as managers, practitioners and users of health services.

The Conference

Will be open to 250 participants, (covid willing) the programme for the conference will include presentations from world leaders in the field of Addiction & Recovery and will comprise a wide range of subjects appealing to its diverse audience.
